

How far do you have to go for clean water?

4th New England Water For People Gala Celebration

People, especially children, in developing countries like the Dominican Republic suffer from unsafe drinking water and spend a large portion of their day collecting it.

Go the distance for clean water at Fenway Park on Saturday, May 1, 2010, 6:30 pm to 10:30 pm

Save the date! Join New England Water For People, the New England Water Works Association, the New England Water Environment Association, and local Dominican Republic community leaders at a special Gala Celebration.

The Goal: To raise funds for sustainable projects that provide safe drinking water, health and hygiene education, and basic sanitation facilities to the people of the Dominican Republic.

The Place: Fenway Park, State Street Pavilion
Some of the world's greatest Dominican baseball players from Juan Marichal to Big Papi, David Ortiz, have gone the distance in this beloved ballpark.

The Festivities: Tour the park. Warm your heart and souls with a taste of island cuisine, cocktails, music, and guest speakers.

Your Contribution: \$125 per person
Proceeds from this event will be used to fund Water For People's program in the Dominican Republic.

Be a Sponsor

Ask your employer about being a sponsor ([click here](#) for list of opportunities) or volunteer to help our Gala Committee.

For further information or to register online, visit waterforpeople.org/negala or contact New England WFP Gala Committee Co-Chair, Rebecca Jenkins, 978-577-1415, rebecca.jenkins@stantec.com.

About Water For People

Water For People (WFP), a non-profit organization, is a champion for people in developing countries – helping them help themselves by implementing simple, affordable water and sanitation solutions to meet the needs of their community. Visit www.waterforpeople.org to learn more.
